2015 Inactive Teams and New Players

Chivas USA (Disbanded)

Pts - Points, Min - Minutes Played, GS - Goals Scored, Ast - Assists, GC - Goals Conceded,
 YC - Yellow Card, RC - Red Card, Svs - Saves, Crs - Crosses,
 CBI - Clearances Blocks & Interceptions, KP - Key Passes, GP - Games Played

Data from players who played 0 minutes omitted

After several seasons of poor performance, dwindling attendance, discrimination lawsuits, and mounting questions about the dedication of its owners to building a successful MLS team, Chivas USA was purchased by MLS with plans to sell the team to a new ownership group. Currently a new LA team is scheduled to take its place in the 2017 season. A dispersal draft was held on November 19th for all former Chivas USA players. This draft did not include forward Erick "Cubo" Torres. Players not selected in the Dispersal Draft may then take part in the Re-Entry and Waiver Drafts.

The results of all player transfers are listed below and the final stats of the unselected players.

Chicago Fire

Pts - Points, Min - Minutes Played, GS - Goals Scored, Ast - Assists, GC - Goals Conceded, YC - Yellow Card, RC - Red Card, Svs - Saves, Crs - Crosses, CBI - Clearances Blocks & Interceptions, KP - Key Passes, GP - Games Played

Data from players who played 0 minutes omitted

After finishing one spot above the bottom on the Eastern Conference table, Chicago needed to make some big changes before the 2015 season, and that is just what they did. Three offensive DPs were brought in and they will now be able to field a solid second keeper when without Sean Johnson. Unfortunately, these changes did not include an overhaul of Chicago's defensive unit and that could continue to be their Achilles heel.

If Chicago hopes to replace draws with wins this season, they will need to either focus on better solidifying their defensive unit or hope that the small uptick in defensive performance they experienced at the end of last season will carry into 2015.

Notable additions: Shaun Maloney, Kennedy Igbananike, and David Accam

Colorado Rapids

Pts - Points, Min - Minutes Played, GS - Goals Scored, Ast - Assists, GC - Goals Conceded, YC - Yellow Card, RC - Red Card, Svs - Saves, Crs - Crosses, CBI - Clearances Blocks & Interceptions, KP - Key Passes, GP - Games Played

Data from players who played 0 minutes omitted

After starting the 2014 season strong, Colorado fell to almost the bottom of the Western Conference table. Some of their problems can be attributed to a new coach and inconsistent starting lineups, but mostly the team was hit hard by late season injuries. The rapids have kept much of their core team from 2014 and have made key trades to add experience and in key areas.

The biggest challenge facing Colorado now is to find the stability so all of these new players can gel, but as long as everyone can stay healthy, Colorado has the youth and experience to once again challenge for a playoff spot.

Noteable additions: Marcelo Sarvas, Sam Cronin, and Zac MacMath

Columbus Crew SC

Pts - Points, Min - Minutes Played, GS - Goals Scored, Ast - Assists, GC - Goals Conceded, YC - Yellow Card, RC - Red Card, Svs - Saves, Crs - Crosses, CBI - Clearances Blocks & Interceptions, KP - Key Passes, GP - Games Played

Data from players who played 0 minutes omitted

After a strong finish in the final weeks of the 2014 season, it's no surprise that the biggest change Columbus has made is its logo. Few changes have been made to the roster, but those that have, should add more attacking options to the Crew arsenal.

Most notable is the addition of Kei Kamara to be the target forward but the Crew's midfield will also see several new faces who could provide their own offensive threats. It's yet to be seen if there is enough defensive depth, but if everyone stays healthy, Crew SC will be a team to keep an eye on.

Notable additions: Kei Kamara and Kristin Halmstad

Data from players who played 0 minutes omitted

DC has made few moves during the off season and it's not surprising after having on the best defenses in the league, finishing 1st in the Eastern Conference, and coming in 3rd in the overall standings. If it ain't broke, don't fix it seems to be the general motto going into 2015.

The few moves that have been made seem to be focused on adding some depth to midfield and adding some a few more attacking options in general. But, at this point, play time will most likely go to the tried and true starters from 2014.

FC Dallas

Pts - Points, Min - Minutes Played, GS - Goals Scored, Ast - Assists, GC - Goals Conceded, YC - Yellow Card, RC - Red Card, Svs - Saves, Crs - Crosses, CBI - Clearances Blocks & Interceptions, KP - Key Passes, GP - Games Played

Data from players who played 0 minutes omitted

Much like DC, Dallas had a strong showing in 2014 and has made few transfers during the off-season. Under new coach Oscar Pareja, the team made it to the playoffs and finished just 2 points shy of 3rd place in the Western Conference.

Dallas mostly lost players during the off-season, and this could be a problem for their midfield, which suffered injuries last year and has lost depth. On the bright side, the question of former Chivas USA keeper Dan Kennedy should provide some long needed stability to the keeper position for Dallas and we'll finally be able to see how he performs behind a better defensive unit.

Notable additions: Dan Kennedy

Data from players who played 0 minutes omitted

Houston had a rough 2014, and all of the problems started with their backline. After two years of having the most solid and dependable defense, especially at home, the Dynamo allowed almost 60 goals last year. This, combined with World Cup absences and injuries was just too much and cost Houston a playoff spot.

With this poor performance, it's surprising that only one player was added on defense, however, he is an experienced center back so that could provide the needed stability. The other big signing was Erick Torres who will share attacking responsibility with Will Bruin, if not take it all. Houston's new coach has a lot of work with, and the potential for a playoff return could be in the cards.

Notable additions: Raul Rodriguez and Erick Torres

Data from players who played 0 minutes omitted

LA's roster has seen the fewest changes during the break, but it's mostly been in the departures column. Most were fringe players, but they have also lost key players Landon Donovan and Marcelo Sarvas. The one bright spot is that Steven Gerrard will be joining the team, but not until July, so LA will need to figure out how to work with their depleted midfield resources.

However, it's important to remember that LA also started out slow in 2014, so this may just mean that LA will be a second season team again.

Notable additions: Steven Gerrard (in July)

Montreal Impact

Pts - Points, Min - Minutes Played, GS - Goals Scored, Ast - Assists, GC - Goals Conceded, YC - Yellow Card, RC - Red Card, Svs - Saves, Crs - Crosses, CBI - Clearances Blocks & Interceptions, KP - Key Passes, GP - Games Played

Data from players who played 0 minutes omitted

To put it bluntly, 2014 was a failure for Montreal. They finished dead last and only racked up 6 wins. The one clear thing was that they needed a lot of work, and that is just what happened. Their defense has seen a huge overhaul with only two of the regular players returning in 2015. Offensively, few changes were made but the few new faces will bring some needed experience to the Impact's ranks.

On the bright side, the only place Montreal has to go is up, but a lot of pieces have to fall into place for that to happen.

 CBI - Clearances Blocks & Interceptions, KP - Key Passes, GP - Games Played

Data from players who played 0 minutes omitted

Like LA, New England has made few changes during the off-season. Unlike LA, they will not start 2015 with without a couple of key players. It's true that they have lost Patrick Mullins, but the return of Juan Agudelo should more than make up for that loss.

The only negative comment to be made about New England at this point is that with the loss of A.J. Soares, their defense lacks depth and that could be a problem is they have injuries. But as it stands, this team should pick up where it left off and be successful in 2015.

Notable additions: Juan Agudelo

Data from players who played 0 minutes omitted

At first look, NYCFC has done an average job at drafting a team that will be able to support its stars, Villa, Diskerud, and Lampard, in the 2015 season, and once Lamaprd joins the team in July, NYCFC has the potential to have a very formadable midfield. However, its defense is questionable.

There is just no standout defensive player for NYCFC as all of the current players either missed last season or could only be considered average based on 2014 stats. Their Keeper options also suffer from similar problems. Overall, NYCFC seems like a glass cannon.

Notable additions: David Villa, Mix Diskerud, and Patrick Mullins

Data from players who played 0 minutes omitted

The off-season has been one filled with a lot of surprises and emotional extremes for the Red Bulls. They won their first trophy, hired a new sporting director, lost a successful fan favorite coach, and saw the loss of three key players (including 2 DPs). Fortunately, they have been able to maintain their core group of players, so the on the field performance may not change as much.

The most exciting trade was getting Sacha Kljestan who will go a long way to help reinforce the attacking hole left by Henry. It's yet to be seen is an Olave replacement has been found yet, so it may take time for the NYRB defense to solidify.

Notable additions: Sacha Kljestan, Felipe Martins, and Sal Zizzo

When it comes to the battle of the expansion teams, Orlando seems to have won the preseason battle. They have built what looks like a solid team on paper. The big advantage they had was that they were able to add experienced MLS players around a core of Orlando players who are already used to playing with each other.

The one problem is that many of these players are unknown quantities in MLS, so point production vs. price may not yield the kind of returns that veterans get. But, this could also be a team that has several diamonds in the rough, especially with the former Orlando players.

Notable additions: Kaka, Brek Shea, Bryan Rochez

Data from players who played 0 minutes omitted

Philadelphia has had a quiet off-season, mostly focused on trying to keep some of the talent that had instead of new marquee signings. In the end, not much has changed, and at this point it's hard to say if that is good or bad. The midfield is still filled with a lot of talent, and their defense has some solid players, there is just a lack of consistency that will need to be overcome for a successful 2015.

The weak points are the keeper and forwards positions. Currently there is no clear starter in goal and it's not clear how C.J. Sapong will play with Casey and Wenger.

Data from players who played 0 minutes omitted

After a slide from first place in the Western Conference in 2013 to missing the playoffs last season, the Timbers have made additions to their defense in an effort to shore up their biggest weakness from 2014. Portland managed to score 61 goals last season (3rd in the league), but conceded 52 (14th in the league), 19 more than the previous year.

Nearly all the pieces of their offense remain in place, although injuries will impact the first part of the season (Diego Valeri is recovering from a torn ACL and captain Will Johnson is recovering from a broken leg). What the Timbers will really be hoping for is a return to their 2013 defensive form, which saw them give up only 33 goals.

Notable additions: Nat Borchers, and Adam Kwarasey

Data from players who played 0 minutes omitted

Real Salt Lake has a roster filled with seasoned MLS veterans, but with the departure of former head coach Jason Kreis and a few of his key 2014 players, it may be the younger players who help RSL achieve the success that slipped through their fingers last year.

The core of RSL's midfield is still intact, it not a little shallow. Yet the only notable trade that was the return of Jamison Olave. This will go a long way to keeping their defense solid after losing Nat Borchers to Portland. The big question is how will this team play under a new coach, and unfortunately, we're going to have to wait to see that.

Data from players who played 0 minutes omitted

Underwhelming, that's the word that best summarizes the Quakes' 2014. They finished last in the West and just scraped out an 18th place finish overall. Their off-season has been equally underwhelming. Unlike Montreal, San Jose has not made the kind of trades that are needed to revitalize a struggling team.

Perhaps they don't have the money due to the building of a new stadium, or perhaps they are hoping that new coach Dominic Kinnear will be able to work some magic. Whatever the reason, this is a team that needs a lot more work.

Data from players who played 0 minutes omitted

The 2014 Sounders managed to haul in their first piece of MLS hardware: a Supporters' Shield. Their offense did most of the work to get that trophy, scoring a whopping 65 goals (2nd in the league). The duo of Obafemi Martins and Clint Dempsey remains intact up top, with minimal changes across the roster.

If there is a major concern for Sounders fans and fantasy players, it's defense. Seattle allowed 50 goals last season and haven't signed a new centerback to pair with Chad Marshall. Instead, the plan seems to be to rely on converting Brad Evans to the position, with Zach Scott being used as needed. Of course, it is also likely that the Sounders will sign another centerback before the season begins.

Notable additions: Tyrone Mears

Data from players who played 0 minutes omitted

Sporting Kansas City had a decent showing in the Eastern Conference in 2014, but they are going to have more trouble in 2015 now that they have been moved to the West. To prepare for this, SKC seems to have focused on keeping it's experienced core as intact as possible, but they still need to find a strong attacking combination due to the loss of a few big names.

The biggest change that SKC has made in the off-season is in their defense. They have lost Collin and Kronberg and will need to have players step-up to fill these big rolls. There will also be some new faces in mid-field who hope to add attacking pressure and support Dwyer.

Notable additions: Roger Espinoza, and Soni Mustivar

Toronto had one of the most exciting transfer windows of any team in MLS. They saw some big name players leave, but have replaced them with others. This is not the first time Toronto has come into a season with a lot of excitement, but if they are plagued by fewer injuries, we could all see much better results in 2015.

Much of Toronto's core has stayed the same and it's the attacking side that has seen the most change. The renovations to BMO field mean that Toronto starts the season with a long series of away games, so this may be a team to look at after the first 3rd of the season.

 YC - Yellow Card, RC - Red Card, Svs - Saves, Crs - Crosses,
 CBI - Clearances Blocks & Interceptions, KP - Key Passes, GP - Games Played

Data from players who played 0 minutes omitted

After a surprisingly successful 2014, Vancouver has not done much with its team over the off-season. The main goal has been to keep their defense, which had the most shutouts last year, solid and once again try to make it to the Cup.

The Whitecaps have a deep midfield, but few options at forward. A few of these players are going to have to setup because Pedro Morales will not be able to carry the team alone.
